Home Care Assistance Montreal Opens New Office in West Island

Senior care leader meets growing demand for in-home care services in Montreal and surrounding areas

(Montreal, QC – March 23, 2015) - [Home Care Assistance Montreal](#), a leading international provider of non-medical, in-home senior care, is thrilled to serve the greater Montreal community with its [newest office](#) in the West Island. Located at 1 Holiday Avenue in Pointe-Claire, the location is the 104th Home Care Assistance office in North America.

“I am excited to share what makes Home Care Assistance unique in the home care industry and I am confident this new location will be a great resource for the residents of Montreal and surrounding areas,” said Tim Thomas, Owner of Home Care Assistance Montreal. “Our mission is to change the way the world ages through innovative offerings such as our proprietary [Balanced Care Method](#), which is based on the scientifically studied lifestyles of the longest living people on Earth, and our [Cognitive Therapeutics Method](#), an activities-based program designed to delay the onset of cognitive decline.”

Home Care Assistance’s Staffing Coordinator, Cheryl Barrett, accepts approximately one out of every 25 caregiver applicants. Background checks, reference checks and work authorization are all completed along with a proprietary Caregiver Personality Screening test. The screening test is used to verify applicants’ suitability for the caregiving career by assessing traits such as honesty, kindness and conscientiousness. Holly approaches each client as if he or she were her own parent and spends time matching the client with the best-qualified caregiver for his or her needs and personality.

Though 89% of seniors say they would prefer to keep living at home rather than move to a facility, thousands continue to enter nursing homes every year. With the support of a professionally trained caregiver, older adults can age safely and comfortably in their own homes. Services Home Care Assistance provides include:

- Hourly and live-in care
- Cooking and light housekeeping
- Laundry and change of bed linens
- Grocery shopping and errands
- Companionship and range of motion exercise
- Bathing, dressing and grooming assistance

- Transportation to doctors' appointments, supermarket, pharmacy
- Assistance with walking and transferring
- Status reporting to family
- Medication reminders
