Home Care Assistance of Dana Point Hires Pam Leszczynski as Client Care Manager

Leszczynski will play an integral role in the rapidly growing senior population in Dana Point and the greater Orange County area

(Dana Point, CA – February 2, 2016) [Home Care Assistance of Dana Point](#), a leading provider of in-home care for seniors, is proud to welcome Pam Leszczynski as Client Care Manager. With over 10 years of professional experience in senior care, Pam is highly passionate and dedicated to promoting quality of life for seniors. She has worked in assisted living, memory care, skilled nursing and hospice and is enthusiastic about joining Home Care Assistance to provide care where seniors most prefer: at home.

After witnessing a loved one's battle with Alzheimer's firsthand, Pam became an advocate for those facing the disease. She currently volunteers with Alzheimer's Orange County as a Support Group Facilitator to help families affected by the disease. Pam's expertise in Alzheimer's and other forms of dementia is in line with the company's [Cognitive Therapeutics Method™](#), a unique in-home activities program designed to promote brain health by stimulating the five main cognitive domains with fun and engaging activities.

"At Home Care Assistance, our mission is to change the way the world ages," said Leszczynski. "I am thrilled to be a part of a home care team that is supporting our mission through unique offerings such as the Balanced Care Method™, a holistic approach to care, and the Cognitive Therapeutics Method, a proactive approach to brain health."

Based on the scientific studies of the world's healthiest seniors, the [Balanced Care Method™](#) promotes five key lifestyle behaviors correlated with healthy longevity: healthy diet, physical exercise, active social ties, mental stimulation and a sense of purpose and calm. Caregivers are professionally trained to incorporate the Method into daily care to encourage healthy mind, body and spirit.

As the leading provider of daily care, Home Care Assistance staff is available 24/7 to provide experienced, trustworthy caregivers to help with all home care needs for seniors including transportation, healthy meal preparation, companionship, socialization, activities, personal care, medication reminders and dementia care services. Home Care Assistance caregivers are bonded, insured, covered by Workers' Compensation and screened for criminal backgrounds and driving histories to ensure that clients receive the best care from the most qualified, trustworthy caregivers. Professional, compassionate caregivers encourage independence and engage clients in physical, mental and social activities, providing safety and comfort to seniors and respite and peace of mind to their family members.
