I know that my efforts will continue to make a difference for local Pasadena seniors.”

Based on the scientific studies of the world's healthiest seniors, the Balanced Care Method™ promotes five key lifestyle behaviors correlated with healthy longevity: healthy diet, physical exercise, active social ties, mental stimulation and a sense of purpose and calm. Caregivers are professionally trained to incorporate the Method into daily care to encourage healthy mind, body and spirit. In addition, the Cognitive Therapeutics Method™ is a research-based program designed to promote long-term brain health and prevent cognitive decline by stimulating the five main cognitive domains with fun and engaging activities.

As the leading provider of daily care, Home Care Assistance staff is available 24/7 to provide experienced, trustworthy caregivers to help with all home care needs for seniors including transportation, healthy meal preparation, companionship, socialization, activities, personal care, medication reminders and dementia care services. Home Care Assistance caregivers are bonded, insured, covered by Workers' Compensation and screened for criminal backgrounds and driving histories to ensure that

clients receive the best care from the most qualified, trustworthy caregivers. Professional, compassionate caregivers encourage independence and engage clients in physical, mental and social activities, providing safety and comfort to seniors and respite and peace of mind to their family members.
