Home Care Assistance Receives 2017 Best of Home Care® Provider of Choice Award

Home Care Assistance of Scottsdale is recognized for the third consecutive year as one of the top home care agencies in the country based on client satisfaction

(Scottsdale, AZ – MARCH 17, 2017) [Home Care Assistance of Scottsdale](#), a leading provider of in-home care for seniors, is honored to be recognized as a 2017 Best of Home Care Provider of Choice. This prestigious award is given to home care providers who rank in the top 50th percentile in one or more client satisfaction categories, based on monthly satisfaction interviews conducted by Home Care Pulse.

“The Best of Home Care Awards recognize the leading home care businesses, the best of the best,” said Home Care Pulse Founder and CEO Aaron Marcum. “We are excited to announce these award-winners and celebrate their dedication to providing quality in-home care.”

Home Care Pulse created these awards to identify those agencies in the home care space that demonstrate a passion for client satisfaction and thereby help families make better care decisions for their aging loved ones.

“We are proud to be recognized as a superior leader in home care,” said Ted Holmgren, Owner of Home Care Assistance of Scottsdale. “Our goal is to provide each client with the ultimate home care experience by creating customized care plans to ensure their level of independence. In fact, it’s common for clients to come to Home Care Assistance after not being satisfied with the care they received from another home care agency.”

At Home Care Assistance, care plans are tailored to clients’ individual needs and preferences. Clients are also expertly matched with thoroughly trained, screened and conscientious caregivers. With a mission to change the way the world ages, Home Care Assistance helps seniors live well at home through innovative offerings such as their proprietary [Balanced Care Method™](#), a holistic approach to healthy longevity based on scientific studies of the longest living people on Earth, and the [Cognitive Therapeutics Method™](#), an activities-based program designed to promote brain health and improve quality of life.
